

# PC

The PC is the most complete and practical of WM System's loading ramps. Suitable for most loading and weight requirements, it is extremely practical thanks to the special HORIZONTAL SWIVEL OPENING. The PC Swivel is equipped with self-positioning feet and the larger versions are available with an additional "wheel kit" to make the lifting and lowering of the ramp even easier. The platform is made from shot-blasted anti-slip aluminium to give excellent grip during loading.
